HAMPSTEAD HEATH MAP WORK EXERCISE

TEAM NAME	
START TIME	
STA -1.20.0012 TwFINM E	

You should be standing at the end of Parliament Hill, a street where Hampstead town meets Hampstead Heath. Grid Reference 2754 8605. Locate yourself on the map.

Who lived in the house at the top end of this street?
What is he famous for?

	a straight line for 370m until you reach a gate. Don't walk nless you fancy a swim!
What so	t of nets cannot be used here?
you canr	locality lies 570m from you on a bearing of 330°. Unlike last ti ot walk all 570m in a straight line. However, if you determine y on on the map first, you can then decide on the best route to
(Hint: Bre	ak your route into stages so that you can keep a check on where you are
What pre	vents you from walking there in a straight line?
Once you	have arrived:
·	have arrived: ound wetter or drier here than across the rest of the Heath?
Is the gr	
Is the gr	ound wetter or drier here than across the rest of the Heath?
What cha	ound wetter or drier here than across the rest of the Heath?
What cha	ound wetter or drier here than across the rest of the Heath? Inge in vegetation can you see here? at Hampstead Heath is made up of well drained sands overly able (water-tight) clay, can you infer anything about the geology

<i>II</i>	Now find your way to Grid Reference 2744 8703. Again, determine the position on your map and work out the best way to get there.	е
	Once you have arrived:	
	What estate are you about to enter?	
	At what time is it closed in winter?	
• • •	Find Kenwood House on your map.	
	What is its Grid Reference?	
	Make your way there following the paths.	
	Look at the paths beneath your feet. What are they covered with?	
	Considering what you know about the underlying geology of the Heath, d you think this covering is natural or man-made? Why?	0

THE END

Well Done!

Now make sure your teacher notes down what time you finished on the front page of your answer booklet.
